Jumps a Thousand Hurdles.
(From the Strand Magazine)
The craze for strange records began a great many years ago. There was an elderly London omnibus driver named Priestly who at Hull, in 1863, jumped a nousand hurdles each \$ feet 6 inches high in sixty-one and a half minutes. It is said that this record has never since been equalled. Priestly began omnibus driving in the same year, 1863, and during his forty-six years in the service of the London General Omnibus Company he drove buses a distance of about eight hundred and fifty shousand miles.
